Additional Comments:

Note: Because the amount of financial aid a student receives cannot exceed the need determined by the federal formula for financial aid recipients, scholarships are credited against any remaining need or the student's self-help and loan expectations, thus reducing the amount the student may need to borrow or work. Your financial aid package will be adjusted to include a placeholder for expected funds. Once the funds are received, the placeholder will be adjusted.

I certify that to the best of my knowledge all information provided on this form is complete and correct.
